

Why Conserve the Farm?

Promote Community Wellness

- Green spaces are vital to our physical, mental, and spiritual health. We need nature.
- This is the 3-30-300 rule for healthy cities:
 - 3 - everyone should be able to see three decent-sized trees from their home
 - 30 - a city should have 30% tree coverage
 - 300 - everyone should live within 300m of a park or green space

Honouring Indigenous roots

- Indigenous Peoples, including the Huron/Wendat, the Haudenosaunee, and the Anishinaabe, inhabited this land long before settlers arrived.
- The Truth and Reconciliation Commission Report noted that “Supporting Aboriginal peoples’ cultural revitalization, and integrating Indigenous knowledge systems, oral histories, laws, protocols, and connections to the land into the reconciliation process are essential” (Principle # 8).
- We respectfully believe that the local Indigenous community should be involved in determining the future use of this magnificent property.

Our supporters

To date, the following organizations have endorsed the vision of the Save Lemoine Point Farm group. Please contact us if your organization wishes to add an endorsement

"I'm writing on behalf of *The Tragically Hip* to lend our support to the citizens group exploring the future of Lemoine Point Farm. The preservation of this unique piece of land just west of the city is important for our community. As lifelong

Loving Spoonful strongly supports the proposal to protect Lemoine Point Farm in perpetuity. In order to build a sustainable, resilient and justice-oriented food system, we need to protect local farmland and increase the amount of food produced

Swim Drink Fish proudly supports the work The Lemoine Point Farm Group is doing to create swimmable, drinkable, fishable waters. By acting to protect the land and shores of Lemoine Point Farm, the group is taking a holistic watershed approach to

The Food Policy Council of KFLA wholeheartedly supports the conservation of the Lemoine Point Farm. This large piece of farmland and shoreline gives the City of Kingston an exciting opportunity to create a public green space environment similar to Stanley Park in

The Kingston Field Naturalists support the preservation of wildlife and natural habitats and encourage interest in natural environments. The Lemoine Point area is an important resource for the people of the Kingston area.

Conservation and enhancement of Lemoine Point Conservation Area was a founding principle and remains a key priority of the Friends of Lemoine Point. Our support for preservation of neighbouring Lemoine Point Farm including the shoreline, fields and forest, and the habitats they encompass is a natural extension of our long-standing vision for this area. We look forward to working with our

CAPE Ontario advocates for judicious and sustainable land use to preserve farmland, green spaces, and wetlands wherever possible. This includes prevention of unnecessary sprawl and highway development whenever possible to minimize resultant carbon emissions and air pollution to optimize human health, food security and economic co-benefits.

The Ontario Farmland Trust strongly believes in the community action being taken by the Save Lemoine Point Farm group. Ontario is losing precious farmland at an alarming rate to development and other non-agricultural uses. Once this vital resource is paved over we lose its ability to provide local, nutritious food, provide habitat for many species, and support climate change mitigation strategies such as carbon sequestration and water infiltration. Protecting

SLPF Work

- Regular SLPF Group Newsletter
- Mailing list - ~350
- Website News and other updates
- Social media
- Facebook ~850 Friends\~250 followers
- Instagram
